INFORMATION ABOUT CALIFORNIA SCHOOL SYSTEM

School Officers

For the State there is a Superintendent of Public Instruction and a State Board of Education composed of nine members For each county there is a County Superintendent of Schools and a Board of Education composed of five members. For each school district there is a Board of Trustees composed of three members. In cities having charters there is a City Board of Education of five or more members.

Functions of Officers

The Superintendent of Public Instruction superintends the schools of the State, sells the State text-books, acts as the secretary of the State Board of Education, and prepares and disributes blanks, laws and registers for the use of school officers.

The State Board of Education issues life diplomas, adopts and publishes State text-books, prescribes the conditions of high school certificates, and makes accredited lists of normal schools and universities.

The County Superintendent of Schools superintends the schools of the county, issues temporary certificates, conducts county institutes, and acts as the secretary of the County Poord of Education

the County Board of Education.

The County Board of Education grants and revokes teachers' certificates, makes the course of study, conducts teachers' examinations, and graduates pupils from the grammar schools.

The Board of Trustees employs teachers and janitors, builds school houses, and manages the schools. One of their number is elected as clerk, and acts as an executive officer. In cities, the City Board of Education performs the same duties as the Board of Trustees does in the district.

Public Schools

The public schools consist of Primary Schools, giving the first five or six years of instruction; Grammar Schools, giving the next three or four years of work, and High Schools, usually giving four years of work additional to the Grammar Schools. There are also evening schools, kindergartens, manual training schools, and schools for the deaf in some of the cities.

Other State Schools

There is a State University, located at Berkeley; five State Normal Schools, at San Jose, Los Angeles, Chico, San Diego, and San Francisco, respectively; a Polytechnic School at San Luis Obispo; and schools of a reformatory nature at Whittier and Ione. The presidents of any of these institutions will furnish information at request.

Number of Teachers

There are about 8,000 primary and grammar school teachers, and about 1,100 high school teachers. Of these, about one-eighth are men.

Pupils Enrolled

There are about 300,000 primary and grammar school pupils enrolled, and about 30,000 high school pupils. Their schooling costs about ten million dollars per year, for all purposes. Six millions of this is for teachers' salaries.

Teachers' Salaries

The lowest salaries are about \$400 per year, for the teachers of small rural schools. Salaries for primary and grammar schools range from \$400 to \$800 per year, with an average of about \$600. Principals get an average of about \$800. High school teachers receive from \$700 to \$1,500 per year, with an average of about \$1,000. High school principals average about \$1,350. The cost of board ranges from \$16 to \$30 per month, averaging about \$24.

Say you saw it in the Sierra Educational News.

Say you saw it in the Sierra Educational News.

Terms and Times

The term of school varies from 8 to 10 months per year, averaging 9 in primary and grammar schools, 91/2 in high schools. No school can fall below six months. The terms usually begin in September and close in May or June, although there are many exceptions in the high mountains and along the coast.

Teachers' Certificates

There are four kinds of certificates issued by County Boards of Education: High school, Grammar School, Special and Kindergarten-Primary. All certificates require a fee of \$2 before being issued.

High School certificates are issued only upon credentials, not upon examination. circular (No. 4) giving the details of High School certification will be furnished upon request, by the Superintendent of Public Instruction at Sacramento; or a copy may be seen at the office of the nearest County Superintendent of Schools. A High School certificate entitles the holder to teach in any high school, grammar school or primary school in the county.

Grammar School Certificates on Credentials

Grammar School certificates may be issued by the County Board of Education upon credentials, such as other California certificates, diplomas from California State normal schools, State diplomas and normal diplomas found on the accredited list prepared by the State Board of Education. circular (No. 1) giving this accredited list and other details of Grammar School and Kindergarten certification upon credentials may be obtained upon request of the Superintendent of Public Instruction at Sacramento, or a copy may be seen at the office of the nearest County Superintendent of Schools.

Grammar School Certificates on Examination

Grammar School certificates may also be issued by the County Board of Education upon examination. Examinations are held twice a year and upon the following subjects: Reading, English grammar and advanced composition, English and American literature, orthography and defining, penmanship, drawing, vocal music, bookkeeping, arithmetic, algebra to quadratics, plane geometry, geography (physical, political and industrial), elementary physics, physiology and hygiene, history of the United States and civil government, history (ancient, me-diaeval and modern), school law, methods These examinations vary of teaching. somewhat in the different counties, as each county is a law unto itself in details. Usually the examinations occur in December and June and occupy from three to five days of time; but there are many exceptions. All applicants pay a fee of \$2. Detailed information of time, place, rules and samples of questions may usually be ob-

tained upon request of the County Superintendent of Schools. Any Grammar School certificate entitles the holder to teach in any grammar or primary school in the county.

Special Certificates

The County Board of Education may issue Special certificates to those who, by examination or any credentials, or by both, shall satisfy the Board of their special fitness to teach one or more of the particular studies for which special certificates may be granted, and who shall satisfy the board their proficiency in English grammar, orthography, defining, and methods of teaching. No special certificate shall be granted to teach, in any school, studies other than drawing, music, physical culture, and com-mercial, technical or industrial work. These special certificates do not entitle the holder to take charge of regular schools or to teach other branches than the technical ones specifically named in the certificate.

Kindergarten-Primary Certificates
The County Board of Education may grant Kindergarten-Primary certificates upon credentials only, not examination. Such certificates do not entitle the holder to teach primary or grammar school classes, but only kindergartens. Credentials that may be recognized are other California Kindergarten-Primary certificates, from the kindergarten department of a California State normal school, and diplomas from kindergarten training schools on the accredited list. See remark concerning Circular No. 1 under Grammar School certificates, above.

Temporary Certificates

The County Superintendent has power to issue, if he deem it proper to do so, temporary certificates, valid for six months, to persons holding certificates which in his judgment correspond in grade to certificates which may be issued under the provision of law, or to graduates of those schools of the State of California which in his judgment are the equivalent in scholarship required for graduation from the normal schools of California; provided, that no person shall be entitled to receive such temporary certificate more than once in the same county. The temporary certificate requires no fee.

Teachers' Institutes

Each County Superintendent of Schools conducts a County Teachers' Institute each year, at such time, in such manner, and such instructors as he chooses. teachers employed in the county are required to be present and take part in the proceedings. Teachers' salaries are not reduced by such attendance.

CALIFORNIA HIGH SCHOOL CERTIFICATION

Circular 4-Hyatt

State of California Office of Superintendent of Public Instruction Sacramento

CONCERNING HIGH SCHOOL CERTIFI-CATION IN CALIFORNIA

1.—Regular Certification by County Board of Education.

The law provides that the State Board shall prescribe the general rules upon which County Boards and County and City Boards of Education may grant regular high school certificates.

Those rules have been thus formulated:

 High School Certificates may be issued under the provisions of Section 1521, subdivision 2 (a), and Section 1775, subdivision 1 (a), of the Political Code of California, as follows:

- To candidates who have received the Bachelor's Degree from a college requiring not less than eight years of high school and college training, and who submit evidence that in addition to the courses required for the Bachelor's Degree they have success-fully completed at least one year of graduate study in a university belonging to the Association of American Universities: which year of graduate study shall include one half-year of advanced academic study (part of the time, at least, being devoted to one or more of the subjects taught in the high school), and such other time in a wellequipped training school of secondary grade directed by the Department of Education of any one of the Universities of the Association, as may be necessary to fulfil the pedagogical requirements prescribed by this Board.
- (b) To candidates who have received the Bachelor's Degree from a college requiring not less than eight years of high school and college training, and who submit evidence that in addition to the courses required for the Bachelor's Degree they have successfully completed at least one half-year of graduate study in a university belonging to the Association of American Universities; which half-year of graduate study shall consist of advanced academic study (part of the time, at least, being devoted to one or more of the subjects taught in the high school); and six months as student teachers in a well-equipped school of secondary grade directed by a California State Normal, or its recognized equivalent, under conditions conforming to the requirements prescribed by this Board as the minimum · amount of pedagogy.
 - The minimum amount of pedagogy which Section 1521, subdivision 2 (a), of the Political Code, directs the State Board of

Education to prescribe, is hereby declared to be as follows:

Satisfactory completion of courses, suitable and essential to acquiring efficient skill in teaching and an intelligent comprehension of the scope, and the attainable goals in high school instruction; said courses to be equivalent to not less than twelve hours per week for one half-year; provided, that at least one-third of this work shall consist of practical teaching under the direction of supervising instructors of academic competency and breadth of pedagogic comprehension who for a period of not less than two years have taught the subjects in which they supervise.

2. In lieu of the pedagogical training above prescribed, candidates may submit evidence showing that they are graduates of a California State Normal School, or other Normal School officially recognized by this Board as of equivalent rank, or have taught with decided success as regular teachers or as principals at least twenty months in any reputable school, elementary or secondary; and provided that until July, 1908, the practical teaching prescribed may have been pursued in schools of grammar or secondary grade in connection with a California State Normal School, or under the direction of the Department of Education of the University of California or of Leland Stanford Junior University, as evidenced by a certificate of proficiency.

3. The institutions embraced in the Association of American Universities, mentioned in Rule 1 hereof, are the following:

University of California, Berkeley, Cal. Catholic University of America, Washing-

ton, D. C.

University of Chicago, Chicago, Ill. Clark University, Worcester, Mass. Columbia University, New York City,

Cornell University, Ithaca, N. Y. Harvard University, Cambridge, Mass. Johns Hopkins University, Baltimore, Md. Leland Stanford Junior University, Palo Alto, Cal.

University of Michigan, Ann Arbor, Mich. University of Pennsylvania, Philadelphia,

Princeton University, Princeton, N. J. University of Wisconsin, Madison, Wis. University of Virginia, Charlottesville, Va. Yale University, New Haven, Conn.

For convenience, the above rules may be

briefly summarized as follows:

To apply to a County Board of Education for a High School Certificate you must pre-sent satisfactory evidence of three things,

First, that you have had eight years of high school and college work, with Bache-

Second, that you have had a half-year of

postgraduate work in one of the Association

of American Universities,

Third, that you have had six months of practice-teaching in the training school of one of the above Universities, or an Accredited Normal School. (Twenty months of elementary or secondary teaching experience may be accepted in lieu of this six

months' practice-teaching.)

Observe that if you can meet these conditions you have nothing to do with any State authorities, but that you go directly to the Board of Education of the county where you propose to teach. By "satisfactory evidence" is meant diplomas and recommendations of faculties certifying to the high character of the work performed and the personal fitness of the candidate.

2.—The Special High School Credential.

The law provides that the State Board of Education may also consider the cases of individual candidates who have twenty months of successful elementary or secondary experience as teachers, and who have not the exact credentials required above for regular certification. The State Board of Education in considering such cases will have in mind as the standard the same REQUIREMENTS AS FOR REGU-LAR CERTIFICATION ABOVE—that is, four years of high school work, four years of college work, and a half-year of postgraduate university work. As equivalent the Board may consider any evidences of scholarship, education, experience, training, travel, or culture, that may be offered. To candidates who in the judgment of the Eoard fully meet the ACADEMIC AND PROFESSIONAL STANDARDS OF REGU-LAR CERTIFICATION will be granted the Special High School Credential, upon which County and County and City Boards of Education may grant regular High School Certificates.

Candidates for the Special High School Credential will be guided by the following instructions in getting their cases before the State Board of Education:

A. Get a blank application for Special

High School Credential from the office of the Superintendent of Public Instruction at Sacramento. Fill it out with a complete history of your case, and swear to it before some officer competent to administer an oath. Get together the diploma, recommendations, documents and catalogues that officially demonstrate your case. Get a certificate of sound bodily health from a reputable physician. Get a money order for two dollars, payable to the State Board of Education. Send all of these to Superintendent of Public Instruction at Sacramento, California.

B. Do not expect early action upon your application, to meet some sudden emergency. The correspondence, investigation and consideration relating to it may be the work of months. The State Board of Education is an ex-officio body, meets at irregular intervals, and only three or four times per year.

C. Before a Special High School Credential can be issued, you must have a personal interview with some member of the State Board of Education. The credentials cannot be issued to non-residents of California; but the Board will examine and report upon the applications of non-residents when such applications are made as above described.

D. If you have had twenty months' elementary or secondary teaching experience and cannot meet the standards described above, you may show your fitness for the Special High School Credential by taking an examination. Examinations will be given twice per year at Chico, Berkeley and Los Angeles, simultaneously, under direction of the president of the Chico Normal School, the professor of pedagogy of the State University at Berkeley, and the president of the Los Angeles Normal, respectively. Application blanks and further particulars may be obtained at the office of the Superintendent of Public Instruction at Sacramento.

EDWARD HYATT,

Superintendent of Public Instruction.

GIFTS

To choose an appropriate gift—one to be received with genuine pleasure—is truly an accomplishment. Perhaps a suggestion will be of assistance to you before making your purchases for the holiday season. Have you ever considered that an up-to-date un-abridged dictionary is a gift to be longer enjoyed, longer treasured, and of more constant service to the recipient than any other selection you may make? The One Great Standard Authority is Webster's International Dictionary, published by G. & C. Merriam Co., Springfield, Mass. It is recognized by the courts, the schools, and the press, not only in this country but throughout the English-speaking world as the highest triumph in dictionary making. It is the most choice gift.
